The Mayor and Councillors
Weddin Shire Council
GRENFELL NSW 2810

Dear Councillors

I wish to report as follows:

1. **Local Government Reform – Improvement Action Plan (IAP), C2.10.9**

   As previously reported a major component of Council’s ‘Fit for the Future’ proposal is the Improvement Action Plan.

   The Improvement Action Plan continues to be implemented with other strategies to increase efficiencies and income as well as reducing expenditure such as review of asset management and financial systems and processes, work force planning, fees and charges and procurement processes currently being considered.

   It is imperative that the actions in the action plan and other strategies are incorporated into Councils Integrated Planning and Reporting (IP&R) process for the required funding and resources to be provided to allow Council to “work on the business” to ensure Weddin Shire Council remains ‘Fit for the Future.’

   **For Information**

2. **Local Government Reform – Innovation Fund, C2.10.9**

   As Councillors are aware grant funding has been approved under the Innovation Fund for two projects as follows:

   1. To deliver a Fiscal Responsibility Action Plan (FRAP) ensuring that each of the Councils adopt sound financial principles, are fiscally responsible and meet the NSW Government’s Financially sustainable requirements, particularly in regard to submitted FFTF proposals and the new legislation set out in the recent Local Government Act, 1993 amendments. The outcome of this will assist the Government in determining challenges and opportunities for smaller Councils that are capable of being implemented in other organisations.
      A gap analysis will be required to be undertaken to determine what needs to be done at each Council to enable us all to become fiscally responsible.
   2. Complete two comprehensive efficiency and service reviews on two of the Council’s largest recurrent operational programmes being Roads Infrastructure Maintenance and Parks and Gardens Infrastructure Maintenance.

   The Request for Tender (RFT) Documentation for the Fiscal Responsibility Action Plan (FRAP) and the Service Review Action Plan (SRAP) has been developed with the tender currently being advertised through Tenderlink.

   Tenders close on Monday 10 April, 2017.

   **For Information**
3. **Integrated Planning and Reporting (IPR) – Community Strategic Plan, 2017/2027, A3.4.11/A3.4.12**

As Councillors are aware the Community Strategic Plan (CSP) for 2013/2023 is required to be reviewed with the 2017/2027 CSP developed and endorsed by Council.

Community consultation was conducted by way of a Community Panel which is a new way of consulting with our community. The Community Panel was established based on a sample that is most representative of the Weddin community. The issues included in the community panel survey related to broad areas, but include questions and explanations of – effective customer service levels as well as addressing possible efficiencies.

The survey results are attached for Councillors information and effectively endorsed Councils current strategic direction. The establishment of a Health Centre, Grenfell Swimming Pool upgrade and aged care facilities were rated as the top priorities. The participants also recognised the need for advocacy plans, health outcomes into the future and the need to ‘bed down’ existing capital works prior to commencing new projects. The need for effective Asset Management Planning and improved financial systems was also recognised as being very important together with the need to source new income streams.

Various community workshops/meetings have also been held in Caragabal and Quandialla and a meeting will also be held in Greenethorpe in the near future. The village’s priorities emanating from these meetings have been forwarded to Council for consideration as part of the IPR process. Members of the villages have or are also currently nominating members to be on the community panel.

The Community Panel survey results and information received regarding the village’s priorities will be utilised to review the Community Strategic Plan (CSP) before it is submitted to Council prior to it being placed on public exhibition for comment.

**RECOMMENDATION:**

Confirm Proposed Action

**RESOLVED:** Cr Bembrick and Cr O’Byrne that the action be confirmed.

4. **Delivery Plan, 2017/2021, A3.4.13**

The 2017/2021 Delivery Plan will also need to be developed and adopted by Council.

The ‘Fit for the Future’ (FFTF) actions emanating from the Improvement Action Plan (IAP) will need to be incorporated into the draft Delivery Plan.

The survey results will assist in informing the development of the draft Delivery Plan before it is submitted to Council prior to it being placed on public exhibition for comment.

**For Information**

Noted
5. **2017/2018 Operational Plan, A3.4**

As resolved at Council’s February Meeting, the first step in the 2017/2018 Operational Plan process will be a workshop to be held at 9.30am on Thursday, 30 March 2017.

In accordance with the Division’s Meeting Practice Note No. 16, the workshop will be an informal meeting conducted by staff to enable Councillors to discuss and ask questions about the list of possible works for 2017/2018. The workshop cannot make decisions or determine priorities.

As previously requested, it would be appreciated if Councillors’ suggestions for new projects for next year could be submitted in writing by 10 March 2017.

The Extra Ordinary estimates meeting has been scheduled for Monday 10 April 2017 at the Council Chambers.

For Information

5. **New Land Valuations, R1.6**

Council has been provided with an updated general valuation for 1 July 2016. The 1 July 2016 will be used for rating from 1 July 2017. 2016 land values in the Weddin area were prepared by Aspect Property Consultants Pty Ltd.

Reference is made to the attached Valuation report for the Weddin Local Government Area and Newsletter from the NSW Valuer General January 2017 which are also available on the Valuer General’s website at:

http://www.valuergeneral.nsw.gov.au

General information from the valuation report for the Weddin Local Government Area prepared by Valuation Services, a division of Property NSW, who manages the valuation system on behalf of the Valuer General follows:

**General overview**

Overall, land values in the Weddin local government area saw a very strong increase which can mainly be attributed to the very strong increases in rural land values. Residential, commercial and industrial zoned lands remained steady. Large lot residential sites over 4,000m² saw a moderate increase due to increased popularity of rural sites within close proximity to Grenfell township.

### Number of properties by zone

- Residential: 1,129
- Commercial: 152
- Industrial: 1
- Rural: 1
- Other: 27

Total number of properties: **2,766**

### Residential overview

The Grenfell residential market has remained relatively steady since 2014 due to a thinly traded market with limited demand in the town.

Village properties have also remained thinly traded with stable land value levels over the period.
**Median land values and sale prices**

The above chart shows movement in the property market and land values over a five year period. In areas where there are a low number of sales, median sale prices may not accurately reflect the property market. Land values may not always move directly in line with sale prices due to the influence of other factors, such as building costs.

2. Development Application – 42 Main Street Grenfell, DA 64/2016

Council is in receipt of DA 64/2016 for the alterations and additions to the commercial building located on the premises.

The application includes changes to the front façade, external works and stair to the rear onto George Street.

The application for the alterations and addition was approved under delegation except for the stair to the rear. This was deferred pending further investigation.

The proposed stair will encroach on the George Street alignment by up to 1150mm.

In the vicinity are several power poles and unmade gravel road areas. The area supports a very low pedestrian number, would not encroach on any proposed kerb and gutter design and assist with building code requirements for fire egress from the building.

Council is requested to consider the approval of the external stair encroaching on George Street alignment. (See attachment)

For Council’s Consideration

RESOLVED: Cr Bembrick and Cr O’Byrne that Council approve the construction of the stairs at the rear of the premises sited with an encroachment onto Councils Road Reserve by up to 1150mm subject to the following:

a) Installation of single bollard to protect the accessibility of the staircase
b) Provision of evidence of Public Liability Insurance.
c) Ability to remove the staircase at Council’s direction.

3. **Weddin Aquatic Centre, P2.3.1**

Activities on the site have been extensive over the last month with the following actions occurring:

i) Tiling of 50m pool commenced
ii) Slab poured for program pool
iii) Slab prepared for splash pad, storage shed, plant room and balance tanks with concrete pours to be carried out over the next week
iv) Installation of pipework for water reticulation to pools and plant room
v) External drainage to pool shall and associated backfilling
vi) Backfilling for seating area
vii) Drilling of footings for shade structures

It is appropriate at this stage to outline the variation costs and for consideration of funding requirements to complete this development. (see attachment)

The construction of fencing to the western elevation, retaining walls, electrical and hydraulic works are provisional costs and will require further consideration shortly.

4. **Primary Production Strategy, T2.1.9**

Council resolved, at its Ordinary December 2016 Meeting to:

“a) Endorse the Draft Addendum to the Primary Production Strategy and Draft Planning Proposal prepared in accordance with section 55(1) of the Environmental Planning and Assessment Act 1979 to modify controls for minimum lot size for the existing RU1 Primary Production zoned land in the Weddin Shire.
b) Submit the Draft Addendum and Draft Planning Proposal to the Minister for Planning and Environment for a Gateway Determination in accordance with section 56(1) of the Environmental Planning and Assessment Act 1979.
c) Request that the local planning making functions in relation to this planning proposal be delegated to Council.
d) Place the draft Addendum on public exhibition to seek feedback and consult as required.
e) Publicly exhibit the Planning Proposal and notify and consult in accordance with any Gateway Determination requirements and Council’s requirements;
f) Authorise the Director and/or General Manager to negotiate minor amendments with DPE (if required) consistent with the intent of the Draft Addendum / PP.”

Council has received a response from Department Planning and Environment:

“Following a review of the proposal in consultation with NSW Department of Primary Industries – Agriculture (DPI) I am returning it to Council recommending that it not proceed in this form at this time as the reduction of the minimum lot size is not justified in a strategic context. Reducing rural minimum lot size has potentially critical and permanent
implications for commercial agriculture and agribusiness, the principal economic driver and employer of the Weddin local government area.

The Department will assist Council to work with DPI to determine an appropriate lot size or sizes and evidence required.”

Council will be meeting with the DPI Agriculture and Planning & Environment to seek advice as to progressing its proposal to reduce minimum lot sizes in the Shire.

It is seen as appropriate to amend the planning proposal to insert the model clause for boundary adjustment subdivision, intensive agriculture and development near zone boundaries. These model clauses should provide Council with a level of flexibility in rural subdivision while additional work relating to minimum lot size is undertaken with DPI and the Department.

**RECOMMENDATION:** that Council revise its Planning Proposal to insert model clauses for boundary adjustment subdivision, intensive agriculture and development near zone boundaries and submit to the Department of Planning & Environment for Gateway determination.

**RESOLVED:** Cr Diprose and Cr McKellar that Council revise its Planning Proposal to insert model clauses for boundary adjustment subdivision, intensive agriculture and development near zone boundaries and submit to the Department of Planning & Environment for Gateway determination.

5. **LOT 72 DP 1148241 – 1D North Street, Grenfell, T2.3.1**

Council is in receipt of a letter from Mr J & Mrs C Liebich requesting Weddin Shire Council resolve to engage a planner to correct the zoning mistake made by Council in 2012 on 1D North Street Grenfell and return it to a residential property as it was when purchased in 2011. The owner has indicated his desire to develop the land as residential lots.

It was resolved at its Ordinary August 2016 Meeting:

“*That Council request the NSW Planning Department to rezone Lot 72 DP 1148241, North Street from Industrial to Residential after it was incorrectly changed to Industrial in the review of the Weddin LEP in 2011.*”

Department of Planning & Environment responded;

“The proposed rezoning would be required to be considered through the Gateway process with the submission of a planning proposal to the Department. The proposal will need to consider the existing surrounding zones and land uses as well as any existing and potential land use conflicts. Council will also need to comply with all relevant State Environmental Planning Policies and section 177 Directions.

It is however recommended that the proposed rezoning be considered in a strategic context as part of a broader review of the Weddin Local Environmental Plan 2011 for which Council has resolved to undertake in 2017. The Department is available to provide advice to Council when this project commences.”

The land was previously zoned Town (T) under Council’s 2002 Local Environmental Plan.
In 2002 the Land use zoning was – 2(t) Township zone – which permitted Industry/Dwellings. Council approved a 5 Lot residential subdivision subject of DA 79/2005. This application was amended to be a 2 Lot subdivision approved in 2006 (Registered in 2009). The DA 63/2006 approved for the construction of Manager’s Residence sited on same lot as the industrial shed. When the 2011 Local Environmental Plan was made, the zoning was changed to IN1 General Industrial.

Council has resolved to complete a comprehensive review of its existing 2011 Local Environmental Plan and this matter may be addressed at this time.

As part of Weddin LEP Review 2011, Council adopted a communication strategy for the process:

**Exhibition Period**
The public community consultation period shall be 28 days or greater as taken from the first public notice.

**Public Notices**
Community consultation is commenced by giving notice of the public exhibition of the planning proposal. This will be delivered through the local newspapers, community newsletters and on Weddin Shire Council’s website.

Given that the planning proposal relates to the entire Weddin LGA it is considered impractical to notify landholders in writing.

**Media**
The Grenfell Record newspaper will be the primary print media, with community managed newsletters also being utilised.

**Public Information Sessions**
Two public information sessions will be conducted at the Grenfell Community Hub, with these sessions being on a selected day and occur at 2pm and 6pm.

The aim of the sessions to provide the interested public members the opportunity to have the WLEP 2011 and associated information explained and ask questions in relation to it.

**General Information**
During the exhibition period, the following material must be made available for inspection:
- The planning proposal, in the form approved for community consultation by the Director General of Planning;
- The gateway determination; and
- Any studies relied upon by the planning proposal.

**RECOMMENDATION:** Council note the request for rezoning of Lot 72 DP 1148241 North Street and include it in consideration for land use zone change in Council’s Comprehensive Review of Weddin LEP 2011 as recommended by the Department of Planning and Environment.

Cr Liebich previously submitted a written declaration of interest and left the room.

Cr Best took the chair.
**RESOLVED:** Cr Parlett and Cr O’Byrne that Council prepare a Planning Proposal for rezoning of Lot 72 DP 1148241, 1D North Street GRENFELL from IN1 General Industrial to R1 General Residential with funding to be sourced from the Economic Development Reserve.

**Cr Liebich returned to the room and resumed the chair.**

6. **Development Application, DA 55/2016**

Council has received further information as requested by Roads and Maritime Services and forwarded for their further consideration.

Once the information has been assessed and further response received the application will be brought back to Council.

Further all residents who have made a submission have been advised of the status of the application.

7. **LOT 1159 DP 754578 – 1B Grafton Street, Grenfell, T2.3.1**

Council is in receipt of several submissions regarding ongoing issues of the operation of the grain handling facility located at Lot 1159 DP 754578 1B Grafton Street, Grenfell.

Council is in receipt of an extensive number of complaints regarding the operation of the facility over an extended period of time.

A review of Council’s records has been carried out in relation to previous development approvals with specific reference to finalization of the application and compliance with any associated conditions.

These are several recent approvals relevant to consideration:

1) DA 42/2001 – Office Extension
2) DA 25/2002 – Construction of Weighbridge, bitumen pavement and sampling stand
3) DA 86/2002 – Construction of Bulk Grain Shed and intake systems
4) DA 27/2005 – Office Extension
5) DA 30/2010 – Placement of 5 silos concrete driveway, tower conveyor belt
6) BA 12/1998 – Silos, hopper and 12m elevator

It is noted that none of these applications have been issued with occupation certificates.

In addition an assessment of existing boundary control practices regarding storage of empty chemical containers, control of stormwater, dust control, odour control and plant and machinery use has been carried out.

An inspection of the site has revealed the following:

a) Portable seed cleaning unit provided in conjunction with DA 30/2010
b) Existing milling plant requires extensive maintenance to assist with operation
c) Internal road surface as breaking up with larger vehicles. It is noted that the owner does provide water truck in harvest periods to assist with.
d) Stormwater control and earthworks redirecting stormwater is concerning
f) Review of landscaping to assist with neighbourhood impacts.
g) Ad hoc storage of chemical drums/refuse from operation.
h) Traffic control signage required

It is envisaged that with notification of the identified matters with particular reference to requirements for compliance with conditions and directions for appropriate upgrades in facilities and practices, the impacts of the facility can be reduced to an appropriate level.

RECOMMENDATION: that Council commence compliance action in relation to:

i) The finalization of outstanding development approvals
ii) Environmental control of dust, noise, odour through plant cleaning and maintenance
iii) Direction to the provision of appropriate fencing, appropriate storage of used containers, and review stormwater control.
iv) Sealing of Trafficable areas and provide traffic control signage

Cr McKellar previously submitted a written declaration of interest and left the room.

Cr Liebich declared a conflict of interest as a client and left the room.
