The Mayor and Councillors  
Weddin Shire Council  
GRENFELL NSW 2810

Dear Councillors

I wish to report as follows:

**1. Purpose of the Meeting**

This extra-ordinary meeting is held prior to the setting of the estimates. The main purpose of the meeting is to determine priorities particularly for capital projects and also certain operational projects, and to determine various works programmes for the following year.

A workshop was held on 29 March to enable Councillors to discuss the scope of the various projects to be considered, particularly the new projects.

The Operational Plan will be produced under the Integrated Planning and Reporting (IPR) process. As part of this process, Directors have been requested to include works programmes to at least extend through until the end of Council's four year Delivery Programme.

The consideration of rate levels and the prioritising of capital and optional works now will assist staff in formulating the draft Operational Plan to be presented to the May Meeting. Never-the-less the draft budget may still be amended by Council at the May meeting. It is then required to be placed on public exhibition for 28 days, following which it is able to be adopted after consideration of any submissions from the public. The 2018/2019 Operational Plan will be presented to the June Ordinary Council Meeting for formal adoption.

**For Information  
Noted**

**2. Budget for 2018/2019**

IPART has already announced its determination of the maximum permissible rate increase for 2018/2019 as being 2.3% which will raise an additional \$59,455 in the General Fund. The approved figure for 2017/2018 was 1.5% which raised an additional amount of \$36,219.

As Councillors are aware Council has been granted a Special Rate Variation (SRV) of 7% over four years which includes the rate peg. An additional amount over and above the rate peg of approximately \$121,491 will be raised in 2018/2019.

The level of Council's reserves will decrease as funds will be required for capital works projects such as the Weddin Regional Health Hub which will also see a corresponding decrease in interest on investments income. However, as Council's grant funding application under the Building Better Regions Fund (BBRF) for the Health Hub was successful, less funds will be required to be utilized from Council sources.

Council's internal reserves (currently \$5.4m) have all been allocated for specific purposes with the unrestricted funds or 'spare cash' currently being approximately \$1.4m.

Award wages will increase by approximately 2.5% as from 1 July 2018 which will be similar to previous years.

Council's options for financing works are discussed in Item 4 below.

At this stage it is not known how many optional projects (category B) will be able to be funded.

**RECOMMENDATION:** that:

- i) Council adopt the maximum rates increase of 2.3% allowed under rate-pegging legislation
- ii) the draft budget for 2018/2019 be prepared with utilisation of transfers from reserves for nominated projects.

**RESOLVED:** Cr Diprose and Cr McKellar that:

- i) Council adopt the maximum rates increase of 2.3% allowed under rate-pegging legislation
- ii) the draft budget for 2018/2019 be prepared with utilisation of transfers from reserves for nominated projects.

### **3. Objectives for 2018/2019**

Council's Strategic Objectives have been derived from the Community Strategic Plan and the Delivery Programme and have been endorsed and adopted by Council. These are:-

- Strong, diverse and resilient local economy
- Healthy, safe and educated community
- Democratic and engaged community
- Culturally rich, vibrant and inclusive community
- Cared for natural, agricultural and built environments
- Well maintained and improving Shire assets and services

As always, there is ongoing and increasing government pressure on Council to provide funding for administrative and regulatory requirements, which is reducing the available funding for capital projects. Council has limited options to cope with these financial pressures. There is also strong community support for Council to retain its independence and remain a standalone entity into the future. Given this desire for Council to secure its future and remain standalone it is vital for Council to work on improving its systems and capabilities in order to meet its regulatory and reporting requirements.

**For Information  
Noted**

### **4. Income Options**

Council has very limited scope to increase its income. Possible options are discussed below.

#### **(a) Deficit Budget**

Council has avoided a deficit budget in recent years and in the interest of Council becoming financially sustainable in the long term this option is not considered appropriate for Council to undertake in the 2018/2019 financial year.

#### **(b) Special Variation in Rates**

As previously reported, Council has had a Special Rate Variation (SRV) approved. The SRV is assisting in funding the loan repayments on our future capital projects such as the Grenfell Aquatic Centre project as well as assisting in ensuring Council is financially sustainable in the long term.

(c) Loans

Council has borrowed an amount of \$4m externally to fund the new Grenfell Aquatic Centre.

The loan requires an annual repayment figure to be included in the estimates to be funded from operating funds. The SRV will assist in covering the annual principal and interest repayments of the loan. With \$4m borrowed Council's borrowing capacity has most likely reached its limit and it is not recommended we undertake any further borrowing in 2018/2019.

(d) RLR Program (FAG)

Over recent years greater use has been made of the Rural Local Roads (FAG) program for roadworks which were previously funded from rates revenue, namely:-

- gravel resheeting
- kerb and guttering (Grenfell)
- footpaving (Grenfell)
- street construction (Grenfell)
- street construction (Villages)

These new items make up approximately 30% of the total program but are more than compensated for by the Roads to Recovery (R2R) Program which must be spent on roads or streets. The R2R funding will be \$214,266 in the 2018/2019 financial year which while reduced will be very beneficial.

**RECOMMENDATION:** that Council approve "in principle" a balanced budget for 2018/2019.

**RESOLVED:** Cr Brown and Cr Bembrick that Council approve "in principle" a balanced budget for 2018/2019.

**5. Information on Projects**

As in previous years, a workshop has been held to brief Councillors on the various projects to be considered. This information has not been repeated in this business paper.

Changes discussed at the workshop are listed below.

		\$	Category
B5	Grenfell Floodplain Maintenance	17,000	B→ A
C1	Council Chambers – Webcasting System	20,000	C→ A
C9	Mapping – add utilities (water, sewer, etc)	40,000	C→ B Sewer fund
C10	Bogolong Dam – upgrading (subject to grant funding)	1.5m	C→ B
C22	Initial funds – New Quandialla Pool	100,000	C→ B

**For Information  
Noted**

**RECOMMENDATION:**

that the reports by the Director Corporate Services and Director Engineering be here considered.

**RESOLVED:** Cr Diprose and Cr Brown that the reports by the Director Corporate Services and Director Engineering be here considered.

The General Manager  
Weddin Shire Council  
GRENFELL NSW 2810

Dear Sir

I wish to report as follows: -

**1. Weddin Shire Council – Estimates**

As part of the process of considering capital expenditure priorities for the forthcoming financial year the following comments have been included in respect of a number of proposals in the administration department:

**i) Office Refurbishment (B21)**

Council's administration Office is tired, looks old-fashioned and shabby. Updates to the administration office will look to create a more professional image to visitors and also symbolically send a message to employees about high standards, taking a pride in their work and more importantly that we care about them and recognise them as Council's most important asset. In so doing it will help to boost morale and productivity.

This is a reverse brief – in other words we would look to make as many changes as possible for the money that is approved. This will be an ongoing project however in this initial phase it is planned to upgrade the admin section work stations and furniture, look at changes to the reception area and also the committee meeting room to present a more professional space to visitors.

**ii) Information Technology/Office Equipment (A2)**

IT and office equipment are vital items of equipment that underpin all functions/service deliveries undertaken by Council. There is a need to provide for the ongoing strategic update of this equipment to enable council to create efficiencies, drive innovation, and transform the way we engage with our residents, businesses, and employees allowing us to operate in an efficient and effective manner.

A budget allocation of \$30,000 is proposed for the 2018/19 year as per the attached IT Planned Expenditure.

**iii) Economic Development Fund (A9)**

The Economic Development Fund exists as a strategic reserve to allow Council to pursue/support economic development opportunities to facilitate economic growth as and when these opportunities arise. This reserve also increases the capacity of Council to leverage grant funding and/or other external funding opportunities as they present themselves maximizing Councils return on investment (ROI) or the benefits received v's dollars spent.

It is proposed to budget for a \$25,000 allocation in the 2018/2019 financial year. Initial discussions already indicate Council will allocate an amount out of this reserve for the purchase of Christmas decorations for use in the Main Street.

**iv) Organisational Improvements Reserve (D14)**

Many opportunities for improvement have been identified as part of the MLA project warranting a reserve of funds that would be an enabler for action to be taken on these identified opportunities after prioritisation and a business case process. Whilst it is great to identify an opportunity for improvement the most vital step is actually making the change and delivering the improvement which needs an allocation of resources. It is likely this reserve will lead to efficiency gains that will deliver savings and/or better service delivery outcomes.

**v) Jan Lehane Statue (D3)**

Reference is made to the attached information. We have been approached by Gillie and Marc - the sculptors who completed the Henry Lawson Statue about their local legends campaign with a proposal to install a statue of Jan Lehane. Gillie and Marc are engaging sponsors who will cover half the cost of the project, matching Council dollar for dollar. Councils and communities will need to contribute \$20,000 meaning they will receive a bronze sculpture worth \$40,000 for half price.

**vi) Old Records Destruction (D15)**

It has been many years since Council has looked at the archiving or destruction of old records. There is a substantial amount of old records in storage which is added to each year hence records destruction needs to be included as a procedure which is part of Council's overall recordkeeping system. Undertaking old records destruction will help Council to:

- reduce storage costs
- avoid problems of managing and storing vast quantities of records
- find records by reducing their volume including finding records that have permanent value
- ensure records are destroyed in a routine, transparent and timely way.

The General Manager  
Weddin Shire Council  
GRENFELL NSW 2810

Dear Sir

I report as follows on these matters: -

**1. RMS State and National Highway Works Program**

Council entered into a new road maintenance council contract with the RMS for maintenance works on the Mid Western Highway and the Newell Highway on 1 July 2008, and has been extended annually.

The indicative value of the contract for 2018/2019 is as follows: -

Routine Maintenance Services – Mandatory and Supplementary	\$310,000
Provision Services Work Orders (Reseals and Heavy Patching)	<u>\$450,000</u>
	<b><u>\$760,000</u></b>
Heavy patching work	\$ 250,000
Total indicative value of the contract for 2018/2019	<b>\$ 1,010,000</b>

As the need arises, Council actively submits Works Proposal to the RMS for specific works and carries out the work under RMS Work Orders, which further boosts the income (and expenditure) from the RMS.

**RECOMMENDATION:** that Council adopt the proposed 2018/2019 Works Program for RMS State and National Highways.

**RESOLVED:** Cr O'Byrne and Cr Bembrick that Council adopt the proposed 2018/2019 Works Program for RMS State and National Highways.

**RECOMMENDATION:** that Council adopt the proposed 2018/2019 Works Program for the Regional roads Block Grant and note the proposals for future programs.

**RESOLVED:** Cr Bembrick and Cr Diprose that Council adopt the proposed 2018/2019 Works Program for the Regional roads Block Grant and note the proposals for future programs.

**3. Rural Local Roads Program under Financial Assistance Grant (FAG)**

Proposals for Rural Local Roads are based on current 2017/2018 funding levels. As in previous years, Council's emphasis continues to be placed on widening grain haulage routes and school bus routes.

The following comments are made with respect to the proposed program.

- i) Reseal program for various roads - \$200,000
- ii) New Forbes Road widen strengthen pavement- \$ 100,000
- iii) Gravel resheeting \$180,000. There are still a large number of roads in the Shire which are in urgent need for a gravel resheet.
- iv) It is proposed to include:-
  - Grenfell Streets construction – 80,000
  - Grenfell kerb and gutter - \$50,000 Council Funds \$ 50,000
  - Grenfell Streets footpaving - \$ 25,600 Council Funds (25,600)
  - As the kerb & guttering and Grenfell Street construction program has not been completed, it is proposed to complete these works in 2018/2019. It is also proposed to reconstruct the footpath in Cross Street from Melyra Street (west side) to the vehicular entrance to the Bowling Club (1.5m wide along the Vaughn Park frontage and 3.3m wide along the Grenfell Bowling Club frontage).
  - Village Streets reconstruction – \$10,000.
  - Weddin/Camp/Church Street – replace footpath - \$25,600
- v) Thuddungara Road safety improvement - \$ 30,000
- vi) Sucker removal/shoulder grading/spraying - \$40,000.
- vii) Industrial Area Sub Division Driveways Construction - \$10,000
- viii) Gibraltar Rocks Road Bridge construction \$ 180,000 (previously allowed for in 2021/2022 program).

**Note:**

- 1. Widen, strengthen and reseal involves removing existing shoulder material to a depth of 100 mm, tyning existing bitumen and gravel spreading as required. Win load haul and spread 125 mm of gravel preparing and seal.
- 2. Widen shoulders and reseal involves removal of existing shoulder material to a depth of 150 mm. Win, load and place gravel in shoulders, prepare and seal.

**RECOMMENDATION:** that Council approve the program for public exhibition.

**RESOLVED:** Cr Brown and Cr McKellar that Council approve the program for public exhibition.

**4. Plant Replacement Program**

The Plant Replacement Program for 2018/2019, up to 2027/2028 is attached.

The 2018/2019 program allows for the replacement of:-

- Light Vehicles
- Minor Plant
- Wheel loader (Volvo)
- Holland Tractor

The budgeted amount for 2018/2019 is \$ 335,000.

**Note:** There is approximately \$80,000 available from 2017/2018 to fund the additional expenditure in 2018/2019.

**RECOMMENDATION:** that the amount of \$335,000 be set aside as the indicative requirement for plant replacement in 2018/2019 and note the proposals for 2019/2020 up to 2027/2028.

**RESOLVED:** Cr Diprose and Cr McKellar that the amount of \$335,000 be set aside as the indicative requirement for plant replacement in 2018/2019 and note the proposals for 2019/2020 up to 2027/2028.

The estimated construction expenditure for 2018/2019 is as follows: -

- Kerb and Guttering construction \$40,000 (Council half share)

**RECOMMENDATION:** that Council adopt Items 1 to 6 for 2018/2019 Works Program and note the remainder of the proposals for future programs.

**RESOLVED:** Cr Bembrick and Cr Niven that Council adopt Items 1 to 6 for 2018/2019 Works Program and note the remainder of the proposals for future programs.

**6. Shire Roads and Gravel Resheeting Program (FAG and Roads to Recovery)**

The priorities of gravel resheeting are shown in the attached list, as compiled by Council's Engineers inspections and lists approved previously by Council.

Regravelling of existing gravel Shire Roads is imperative in the maintenance of those roads. It is proposed that \$180,000 be allocated on a needs basis to continue to catch up on regravelling works so as to maintain the existing infrastructure and to compliment the recent flood damage works.

**Shire Roads Gravel Resheeting Program (FAG)**

**7. Roads to Recovery, R2.56**

The Roads to Recovery Program for 1 July 2016 to 30 June 2019 will continue, totaling \$ 214,266 for 2018/2019.

The proposed program allows for significant lengths of roads to be widened, strengthened and completed and for reseals to be carried out.

<b>Proposals and Locations</b>	<b>2018/2019</b>	<b>Remarks</b>
Gibraltar Rocks Road bridge	\$214,266	Current Program Ends in 2019/2020
<b>TOTAL</b>	<b>\$ 214,266</b>	

**RECOMMENDATION:** that Council adopt the following work in 2018/2019 under the Roads to Recovery Program:

- Gibraltar Rocks Road bridge \$214,266

**RESOLVED:** Cr Diprose and Cr Parlett that Council adopt the following work in 2018/2019 under the Roads to Recovery Program:

- Gibraltar Rocks Road bridge \$214,266

**R RANJIT**  
**DIRECTOR ENGINEERING**

**RESOLVED:** Cr Brown and Cr McKellar that except where otherwise dealt with the Director Engineering's Report be adopted.

**RESOLVED:** Cr Brown and Cr Parlett that Council return to the General Manager's report.

**(The General Manager's Report continued)**

**6. Prioritising of Works**

As in previous years, the projects have been classified into three categories, being:

- “A” - essential, must be included.
- “B” - desirable to include if funds permit.
- “C” - could be included in a future program.

It is proposed to further prioritise the projects in category “B” as the available funds will only cover some of these projects.

Category “B” projects were able to be funded this year up to B13, and as usual there were no category “C” projects.

Please note that the estimates shown are generally tentative only, and it may be necessary to alter some of these figures when preparing the draft budget.

**a) Continuing Projects**

The following table (Table 1) shows projects considered for 2017/2018 which are re-submitted for consideration in 2018/2019. The projects are listed in their categories and priority order (where applicable) as determined by Council for 2017/2018, however these should be reviewed and can be changed if desired. The tentative estimates have been altered where appropriate.

Note:

- where funding was available in 2017/2018 and is anticipated to be unspent, a carryover has been indicated;
- where a contribution is available from grants or landowners, the figure given is the net cost to Council and is marked by an Asterisk\*;
- categories as suggested by staff are shown in the right hand column;
- the projects marked as “Completed” are anticipated to be completed by 30 June 2018.
- the projects marked for “Deletion” can be removed either because they are completed, or are no longer required.
- projects should not be included in Category A unless considered “Essential”. If this is not done, these projects may take up the available funding at the expense of possibly more worthy projects.

**RECOMMENDATION:** that Council review the categories of the projects in Table 1 and determine any changes.

**RESOLVED:** Cr Parlett and Cr Brown that Council review the categories of the projects in Table 1 and determine any changes.

**Cr Diprose returned to the meeting 5.57pm.**

**RESOLVED:** Cr McKellar and Cr Parlett that Table 2 be adopted as presented.

**c) Determination of Priorities**

Work sheets will be available at the Council Meeting which will combine all the projects in Table 1 and Table 2 into the three recommended categories. These sheets will require adjustment wherever Council determines a category different to that suggested in the Tables, but they will help simplify the final process.

In previous years all category “A” projects have been funded, and some (but not all) category “B”: no projects in category “C” have received funding. It is anticipated that only limited new projects will receive funding in 2018/2019.

Council has many conflicting interests to consider in setting the relative priorities of these projects. It may be helpful to keep in mind the major objectives for the year, so that resources can be concentrated on these areas.

**RECOMMENDATION** (i): subject to available funding it is recommended that all projects in category “A” be included in the draft budget;

**RESOLVED:** Cr Brown and Cr Diprose that subject to available funding it is recommended that all projects in category “A” be included in the draft budget;

As for previous years, the worksheet for category “B” can be prioritised by each Councillor, and staff will then collate the worksheets and advise the majority ranking. The outcome should be known on the evening of the meeting.

In anticipation that this procedure will again be acceptable to Councillors, a preliminary copy of the worksheet for category B will be forwarded before the meeting so that Councillors may tentatively prioritise these projects in advance.

**RECOMMENDATION** (ii): it is recommended that projects in category “B” as prioritised by Councillors be included in the draft budget in overall order of priority, as funds permit.

**RESOLVED:** Cr Brown and Cr Parlett that projects in category “B” as prioritised by Councillors be included in the draft budget in overall order of priority, as funds permit.

**RECOMMENDATION** (iii): it is recommended that projects in category “C” be deferred at this stage.

**RESOLVED:** Cr Diprose and Cr Bembrick that projects in category “C” be deferred at this stage.

**RECOMMENDATION** (iv): it is recommended that nominated projects with unexpended funds from the 2017/2018 budget be included in the draft budget by transfers from reserves.

**RESOLVED:** Cr Diprose and Cr Niven that nominated projects with unexpended funds from the 2017/2018 budget be included in the draft budget by transfers from reserves.

**GLENN CARROLL**  
**GENERAL MANAGER**

**RESOLVED:** Cr Niven and Cr Bembrick that except where otherwise dealt with the General Manager’s Report be adopted.

**CLOSURE:** There being no further business the meeting closed at 6.07 pm

Taken as read and confirmed as a true record this day 19 April 2018.
