Councillors  
Weddin Shire Council  
GRENFELL NSW 2810

Dear Councillors

I wish to report as follows: -

1. **CENTROC and Central NSW Joint Organisation Board Meeting and ACT Legislative Assembly, C2.7.3**

Cr Brown, the General Manager and I attended the Board meetings of Centroc and the Central NSW Joint Organisation (JO) on Thursday 27 February 2020 at the Community Hub Centre in Grenfell.

### **Reports from Centroc**

In line with direction from the Auditor, windup is anticipated by June 30, 2020.

### **Reports from the CNSW Joint Organisation**

#### **Chairman's Minute**

The Minute provided direction to the CNSWJO on activities and priorities for the year in the context of the broader JO Statement of Strategic Priorities. It was resolved that the overall focus for the year's effort is to align with the Federal Government's vision for an agricultural economy of \$100bn by 2030. This would be supported by activity in two areas.

- i. Watering the West
  - a. leveraging raising the wall at Wyangala; and
  - b. assuring urban water security in region; and
- ii. Freight links.

This region has four priorities in its Statement of Strategic Priorities, it was further suggested that there be a maximum of two headline priorities for the areas of Intergovernmental Cooperation and Regional Prosperity. The Board agreed to focus on the following activities within its Plan.

### Intergovernmental Collaboration

1. Reporting value to members through the operational support program.
2. Supporting the sustainability of the broader JO network.

### Regional Prosperity

1. Progressing support for the visitor economy.
2. Developing and monitoring the progress of the Regional Prosperity Subcommittee noting the agricultural focus.

### Procurement and Administration

The Board approved

- a 12-month extension of the coldmix asphalt contract (S3\_2018) with Boral Asphalt and Civil Independence until 31 May 2021;
- a 12-month extension of the compliance training contract (WHS1\_2015) with Allens Training, ATAC, Mines Rescue and TAFE until 31 March 2021;
- a 6-month extension of the Asset Management Maturity Audit contract with University of Technology, Sydney; and
- a procurement process for the revaluation of water and sewer assets, including a 5% contract management fee payable to CNSWJO.

The new Logo was adopted and all collateral will be updated accordingly.

### Energy Program

The Board were updated on the progress of the Southern Lights LED Streetlight rollouts in Bathurst and Orange.

Sourced Energy has calculated the cost savings that councils have achieved through the procurement process and the associated contracts with Energy Australia (large market sites) and Origin Energy (small market sites). The savings are based on forecast loads provided by councils, inclusive of energy efficiency upgrades (e.g. Southern Lights) and the installation of planned solar installations.

### Report on JO Chairs Forum progress including feedback to the Minister on JO sustainability

The Board endorsed the advice provided to the Minister for Local Government's Advisory Committee with regard to sustainability of the broader network. The Board's policy position is that the focus of effort for JO sustainability be working, through the Minister's Office, with State agencies on a funding framework that offers value to both JO members and the State where the value to the State is recognised by remuneration.

### Regional Transport

The Board were asked to provide feedback on the Central West and Orana Future Transport Regional Plan and comment on the suggested feedback already drafted.

## MAYORAL MINUTE

---

The Board endorsed a submission on the Lithgow to Katoomba Corridor. A response to the independent panel for the Regional Road Transfer and NSW Road Classification Review Terms of reference was endorsed and the region has asked the Review Committee to meet with the JO.

### **Regional Water**

Representation will be made to the Premier, Deputy Premier, Minister for Water and respective agencies providing advice on the challenges and solutions for this region in securing water.

Infrastructure Australia will be invited to the next meeting to provide advice on opportunities for this region identified in its recent Priority List 2020.

### **Financial report**

It is anticipated a full year loss of \$60,601 at 30 June 2020 against a budgeted loss of \$52,128.

The increase in the anticipated loss against the budget is due to the reduction in expected interest income and the lesser LGP rebate income.

The Wellness Plan identifies specific actions which we have completed and commenced actioning as detailed below:

- i. The Grenfell Medical Centre is complete and operating successfully as a well-integrated multidisciplinary patient-centred care.
- ii. A skeleton business case for aged accommodation is complete and was used as the basis of making a BBRF application for 13 new double units to be constructed in Parke Street Grenfell. The application was informed and supported by the Wellness Plan and is linked to Councils IP&R. These are significant outcomes.
- iii. Collaboration has commenced with the local Health Area looking to establish the Weddin Wellness Planning Network, which when established will be tasked with reviewing the Wellness Plan before resolving next steps. This is essential as the local health area has drawn on the Wellness Plan to commence developing their own action plan. Their plan will comprise new actions relevant to the Health Area as well as those set out in the Council's Wellness Plan. Their Health Plan is currently in draft form and is still with the Department of Health awaiting approval. It is proposed to initiate the Wellness Planning Network after the release of Health Department's Plan.

As mentioned above a skeleton business case for potential investors in a variety of possible provider areas is currently being used as the basis for an application under the Building Better Regions Fund (BBRF) for 6 new aged/pensioner units managed and administered by the Grenfell and District Seniors Welfare Committee. The business case will also be used to attract investment or grant funding in other health "gaps" such as the development of an aged persons hostel.

Draft priorities have been agreed with Directors and will now be discussed with myself leading to developing a template for the Action Plan for each priority action.

This will be undertaken in collaboration with the staff member responsible with a platform to track, report and deliver the outcomes required. This platform will allow a twice-yearly reporting mechanism for Council to ensure the improvement plan is being delivered.

### **6. NSW Auditor General Report on Local Government 2019, A1.6**

On 5 March 2019 the NSW Auditor General presented their third report to the Parliament on the 2019 audits of local government councils in New South Wales. A full copy of the report is attached to the business paper.

The report notes that unqualified audit opinions were issued on the 2018–19 financial statements of 134 councils and 11 joint organisations. The opinion for one council was disclaimed and three audits are yet to complete.

The report also highlights improvements seen in financial reporting and governance arrangements across councils. Fewer errors were identified. More councils have audit, risk and improvement committees and internal audit functions. Risk management practices, including fraud control systems, have also improved.

However, the report also highlights there is more work to do, particularly to prepare for new accounting standards and to strengthen controls over information technology and cyber security management. Asset management practices can also be improved. The report provides some guidance to councils on these matters with key insights for Council's as follows:

#### **Strengthen the quality and timeliness of financial reporting**

##### Councils should:

- allocate sufficient time and resources to the financial reporting process. Refer to page 18 for better practice guidance
- have appropriate systems, processes and resources to implement the new accounting standards. Refer to page 20 for some key points to consider in the transition.

#### **Improve governance and internal controls**

##### Councils should:

- ensure that audit recommendations in our management letters are addressed in a timely manner. High risk issues need to be prioritised and repeat issues from prior years resolved
- have an audit, risk and improvement committee, which is a mandatory requirement by March 2021. Early adoption is encouraged
- have an internal audit function to support a risk and compliance culture
- have a legislative compliance framework to capture and monitor compliance with key laws and regulations
- continue improving their fraud control systems
- have adequate processes and controls to ensure compliance with their gifts and benefits policy and the Model Code of Conduct.

### **Strengthen IT controls and cyber security management**

#### Councils should:

- ensure key IT policies are formalised and regularly reviewed to ensure emerging risks are considered and policies are reflective of changes to the IT environment
- ensure IT risks are identified and appropriately managed
- improve user access management processes to ensure that information systems are secure and that there are adequate controls for making changes to information systems
- implement at least the basic governance and internal controls to manage risks associated with cyber security.

### **Improve asset management practices**

#### Councils should:

- regularly update asset registers, reconcile their asset registers with asset management systems and have suitable controls in place to ensure the integrity of manual spreadsheets
- start the asset valuation process earlier and ensure there is a clear plan to ensure valuations are managed and documented appropriately
- periodically reconcile asset registers to the Crown Land Information Database (CLID) and investigate any discrepancies in a timely manner
- review the methodology and assumptions in how they account for landfill sites.

### Weddin Landcare Steering Committee Inc. ("Weddin Landcare")

The significant Weddin Landcare connected activities and events of recent times are outlined below.

#### Agreement with NSW Local Land Services

LachLandcare Inc. had previously hosted Weddin Landcare's Local Landcare Coordinator but elected not to do so for the 2019 – 2023 NSW Landcare Program. Weddin Landcare determined to host the new position directly and a new Funding Deed was agreed and finalised with Local Land Services NSW commencing 18 December 2019. In short, the Funding Deed provides sufficient funds to support a 0.3 FTE position through to 30 June 2023.

The Key Deliverables of a Local Landcare Coordinator as defined in the Funding Deed include:

- Stimulate local community engagement and participation in Landcare
- Provide support to groups, networks, Landcarers and landholders to participate in natural resource management activities that address critical agricultural sustainability and environmental issues
- Undertake and support planning
- Develop partnerships and work to secure resourcing through project grants and other sources
- Monitor, evaluate and report on activities and outcomes
- Facilitate linkages between Landcare activities/projects, Local Land Services and Landcare NSW
- Participation in regional and state Community of Practice
- Work with Host and local groups to develop and implement a Local Priority Action Plan
- Work with the Regional Coordinator to develop and support the implementation of Regional Priority Plan

#### Appointment of Weddin Landcare's Local Landcare Coordinator

Melanie Cooper was appointed to the role of Local Landcare Coordinator for Weddin Landcare and commenced Monday 20<sup>th</sup> January 2020.

- Mobile 0417 963 475; or
- Email: [weddinlandcare@outlook.com](mailto:weddinlandcare@outlook.com)

Melanie's appointment is a great outcome for our community. She is highly experienced and regarded both locally and throughout the region.

### Weddin Landcare Event – Screening of the “2040” documentary

Weddin Landcare will be hosting a screening of the documentary film “2040” at the Community Hub in Grenfell on Saturday 4<sup>th</sup> April. “2040” is an innovative and inspiring feature documentary that explores what the future could look like by the year 2040 if humanity simply embraced the best regenerative solutions to improve our planet that are already available. Following the screening of the film, there will be an open discussion around some of the key aspects of the film of interest to the Weddin Shire community including Regenerative Agriculture, Renewable Energy and Circular Economy. Supper will be provided, with doors opening at 6:30pm.

Current thinking is that ‘further down the track’ screenings of the film will also be conducted in Caragabal, Quandialla, Greenethorpe and Bribbaree as well as the three schools in Grenfell. It is hoped that the film will ‘kickstart’ a series of other events for Weddin Landcare such as a solar information day/s, regenerative agriculture field day/s and waste reduction campaigns. Council may choose to be involved in the latter of these activities at that time.

Clr Phillip Diprose
