TEKFARM®

Getting Farm Tech Connected

Wed 27th March 2024 | 10:00 AM to 2:00 PM Grenfell Bowling Club

The 'TEKFARM - Getting Farm Tech Connected' event will support local producers in the Grenfell and surrounding regions to improve connectivity by developing a digital roadmap for adopting technology in their farming business. The event will assist farmers to:

o identify individual pain points that can be addressed with agtech;

 build capability in selecting technology solutions which resolve their specific connectivity needs; and

 learn how agtech can provide a return on investment and be integrated to support data-driven decision making.

The event will encourage participants to adopt agtech to improve their farm connectivity, as well as showcasing the growing innovation ecosystem within regional communities which supports farmers to solve their own challenges.
